## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 9, the term "TMCC" in line 4 is critical or essential to the practice of the invention, but not defined in the claim(s) and is not enabled by the disclosure. It is suggested the phrase "(Transmission and Multiplexing Configuration Control" be inserted after the first occurrence of the term "TMCC".

Further regarding claim 9, the phrase "comprises a serial/parallel converter for serial/parallel converter for serial/parallel converting" in lines 5-6 render the claim indefinite. It is suggested the phrase "comprises a serial/parallel converter for serial/parallel converter for serial/parallel converting" be replaced with the phrase —"comprises a serial/parallel converter for serial/parallel converting" —.

Further regarding claim 9, the terms "immediately before" and "immediately after" are relative terms which render the claim indefinite. The term "immediately" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Further regarding claim 9, the phrase "demodulated by a demodulation circuit" in line 7 renders the claim indefinite for omitting the structural cooperative relationship between the demodulation circuit in line 7 and the demodulator in line 2.

Claims 10-13 are dependent on rejected claims 9 and are rejected under 35 U.S.C. 112, second paragraph.

Regarding claim 14, as applied to the term "TMCC" in line 3, see claim 9; and as applied to the term "immediately" in line 4, see claim 9.
